

Version 1.0 Revision Date 12.02.2020

Ref. 130000027529

This Safety Data Sheet adheres to the standards and regulatory requirements of Great Britain and may not meet the regulatory requirements in other countries.

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

Product name	:	QUANTUM MAX <sup>™</sup> SX
Synonyms	:	B12014143 DPX-GBF92 50SG

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the Substance/Mixture Herbicide

### 1.3. Details of the supplier of the safety data sheet

Company	: Du Pont (UK) Limited Wedgwood Way Stevenage, Herts. SG1 4QN United Kingdom
Telephone	: +44 (0) 1438 734 000
E-mail address	: sds-support@che.dupont.com

### 1.4. Emergency telephone number

Emergency telephone number : +44 (0) 8456 006 640

### **SECTION 2: Hazards identification**

### 2.1. Classification of the substance or mixture

Acute aquatic toxicity,	H400: Very toxic to aquatic life.
Category 1 Chronic aquatic toxicity, Category 1	H410: Very toxic to aquatic life with long lasting effects.
Dangerous for the environment	R50/53: Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

### 2.2. Label elements

### Warning

Version 1.0 Revision Date 12.02.2020	Ref. 13000027529
H410	Very toxic to aquatic life with long lasting effects.
Special labelling of certain substances and mixtures	EUH401: To avoid risks to human health and the environment, comply with the instructions for use., Contains: Tribenuron methyl / EUH208: May produce an allergic reaction.,
P391 P501	Collect spillage. Dispose of contents/ container to an approved waste disposal plant.
SP 1	Do not contaminate water with the product or its container (Do not clean application equipment near surface water/Avoid contamination via drains from farmyards and roads).

### 2.3. Other hazards

This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT). This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

### **SECTION 3: Composition/information on ingredients**

### 3.1. Substances

not applicable

### 3.2. Mixtures

Registration number Classification according to Directive 67/548/EE	Classification according to Regulation (EU) 1272/2008 C (CLP)	Concentration
---	---	---------------

### Tribenuron methyl (CAS-No.101200-48-0) (EC-No.401-190-1)

R43	Skin Sens. 1; H317	25 %
N;R50/53	Aquatic Acute 1; H400	
	Aquatic Chronic 1; H410	

### Thifensulfuron methyl (CAS-No.79277-27-3)

	N;R50/53	Aquatic Acute 1; H400	25 %
		Aquatic Chronic 1; H410	

#### Sodium carbonate (CAS-No.497-19-8) (EC-No.207-838-8)

(	01-2119485498-19	Xi;R36	Eye Irrit. 2; H319	>= 10 - < 15 %
, c	7-2113403430-13	71,130	Lye IIII. 2, 11019	>= 10 - < 15 /0

#### Trisodium phosphate dodecahydrate (CAS-No.10101-89-0)

01-2119489800-32	C;R34	Skin Corr. 1C; H314	>= 5 - < 10 %
		Eye Dam. 1; H318	

The above products are REACH compliant; Registration number(s) may not be provided because substance(s) are exempted, not yet registered under REACH or are registered under another regulatory process (biocide uses, plant protection products), etc.

Version 1.0 Revision Date 12.02.2020

for firefighters

#### Ref. 13000027529

For the full text of the R-phrases mentioned in this Section, see Section 16. For the full text of the H-Statements mentioned in this Section, see Section 16.

### **SECTION 4: First aid measures**

### 4.1. Description of first aid measures Never give anything by mouth to an unconscious person. For specialist advice General advice physicians should contact the National Poisons Information Service: Tel. 111 for England and Wales and Tel. 08454 24 24 24 for Scotland. Move to fresh air. Consult a physician after significant exposure. Artificial Inhalation respiration and/or oxygen may be necessary. Take off contaminated clothing and shoes immediately. Wash off immediately Skin contact 2 with soap and plenty of water. In the case of skin irritation or allergic reactions see a physician. Wash contaminated clothing before re-use. If easy to do, remove contact lens, if worn. Hold eye open and rinse slowly and Eye contact gently with water for 15-20 minutes. If eye irritation persists, consult a specialist. Obtain medical attention. DO NOT induce vomiting unless directed to do so by Ingestion a physician or poison control center. If victim is conscious: Rinse mouth with water. 4.2. Most important symptoms and effects, both acute and delayed Symptoms No cases of human intoxication are known and the symptoms of experimental intoxication are not known. 4.3. Indication of any immediate medical attention and special treatment needed Treatment Treat symptomatically. SECTION 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media : Water spray, Dry chemical, Foam, Carbon dioxide (CO2) Extinguishing media which : High volume water jet, (contamination risk) shall not be used for safety reasons 5.2. Special hazards arising from the substance or mixture Specific hazards during : Hazardous decomposition products formed under fire conditions. Carbon dioxide (CO2) nitrogen oxides (NOx) firefighting 5.3. Advice for firefighters Special protective equipment : Wear full protective clothing and self-contained breathing apparatus.

QUANTUM MAX <sup>™</sup> SX	
Version 1.0 Revision Date 12.02.2020	Ref. 130000027529
Further information	<ul> <li>Prevent fire extinguishing water from contaminating surface water or the ground water system. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.</li> <li>(on small fires) If area is heavily exposed to fire and if conditions permit, let fire burn itself out since water may increase the area contaminated. Cool containers / tanks with water spray.</li> </ul>
SECTION 6: Accidental release	
6.1. Personal precautions,	protective equipment and emergency procedures
Personal precautions	: Control access to area. Avoid dust formation. Avoid breathing dust. Use personal protective equipment. Refer to protective measures listed in sections 7 and 8.
6.2. Environmental precau	tions
Environmental precautions	: Prevent further leakage or spillage if safe to do so. Use appropriate container to avoid environmental contamination. Do not flush into surface water or sanitary sewer system. Do not allow material to contaminate ground water system. Local authorities should be advised if significant spillages cannot be contained. If the spill area is porous, the contaminated material must be collected for subsequent treatment or disposal. If the product contaminates rivers and lakes or drains inform respective authorities.
6.3. Methods and material	s for containment and cleaning up
Other information	: Never return spills in original containers for re-use. Dispose of in accordance with local regulations.

### 6.4. Reference to other sections

For personal protection see section 8., For disposal instructions see section 13.

### **SECTION 7: Handling and storage**

#### 7.1. Precautions for safe handling

Advice on safe handling : Use only according to our recommendations. Use only clean equipment. Avoid contact with skin, eyes and clothing. Do not breathe dust or spray mist. Wear personal protective equipment. For personal protection see section 8. Prepare the working solution as given on the label(s) and/or the user instructions. Use prepared working solution as soon as possible - Do not store. Provide appropriate exhaust ventilation at places where dust is formed. Wash hands before breaks and immediately after handling the product. Remove and wash contaminated clothing before re-use. Avoid exceeding of the given occupational exposure limits (see section 8).

# Advice on protection<br/>against fire and explosion:Keep away from heat and sources of ignition. Avoid dust formation in confined<br/>areas. During processing, dust may form explosive mixture in air.

#### 7.2. Conditions for safe storage, including any incompatibilities

4/14

QUANIUM MAX SX		
Version 1.0 Revision Date 12.02.2020		Ref. 13000027529
Requirements for storage areas and containers	:	Store in original container. Keep in properly labelled containers. Keep containers tightly closed in a dry, cool and well-ventilated place. Store in a place accessible by authorized persons only. Keep out of the reach of children.
Advice on common storage	:	No special restrictions on storage with other products.
Other data	:	Stable under recommended storage conditions.
7.3. Specific end use(s)		
Plant protection products su	ıbjec	t to Regulation (EC) No 1107/2009.
SECTION 8: Exposure controls	s/pe	sonal protection
8.1. Control parameters		
If sub-section is empty then	no v	alues are applicable.
8.2. Exposure controls		
Engineering measures	:	Ensure adequate ventilation, especially in confined areas. Provide for appropriate exhaust ventilation and dust collection at machinery. Contains no substances with occupational exposure limit values.
Eye protection	:	Safety glasses with side-shields conforming to EN166
Hand protection	:	Material: Nitrile rubber Glove thickness: 0.3 mm Glove length: Standard glove type. Protection index: Class 6 Wearing time: > 480 min The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. The suitability for a specific workplace should be discussed with the producers of the protective gloves. Gloves must be inspected prior to use. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough. Gauntlets shorter than 35 cm long shall be worn under the combination sleeve. Before removing gloves clean them with soap and water.
Skin and body protection	:	Manufacturing and processing work: Full protective clothing Type 5 (EN 13982-2) Mixer and loaders must wear: Full protective clothing Type 5 + 6 (EN ISO 13982-2
		/ EN 13034) Rubber apron Rubber or plastic boots
		Spray application - outdoor: Tractor / sprayer with hood: No personal body protection normally required.
		Tractor / sprayer without hood: Low application (horticulture, field crops): Full protective clothing Type 4 (EN 14605) Rubber or plastic boots
		Backpack / knapsack sprayer: Low application (horticulture, field crops): Full
		5/14

Version 1.0 Revision Date 12.02.2020	Ref. 13000027529
	protective clothing Type 4 (EN 14605) Rubber or plastic boots
	When exceptional circumstances require an access to the treated area before the end of re-entry periods, wear full protective clothing Type 6 (EN 13034), nitrile rubber gloves class 3 (EN 374) and nitrile rubber boots (EN 13832-3 / EN ISO 20345).
	To optimize the ergonomy it may be recommended to use cotton underwear when wearing some fabrics. Take advice from supplier. Garment materials that are resistant to both water vapour and air will maximise wearing comfort. Materials should be robust to maintain the integrity and barrier in use. The permeation resistance of the fabric must be verified independently of the « type » protection recommended, to ensure an appropriate performance level of the material adequate to the corresponding agent and type of exposure.
Protective measures	: The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. All chemical protective clothing should be visually inspected prior to use. Clothing and gloves should be replaced in case of chemical or physical damage or if contaminated. Only protected handlers may be in the area during application.
Hygiene measures	: Handle in accordance with good industrial hygiene and safety practice. Regular cleaning of equipment, work area and clothing. Keep working clothes separately. Contaminated work clothing should not be allowed out of the workplace. Wash hands and face before breaks and immediately after handling the product. When using do not eat, drink or smoke. Keep away from food, drink and animal feedingstuffs. For environmental protection remove and wash all contaminated protective equipment before re-use. Remove clothing/PPE immediately if material gets inside. Wash thoroughly and put on clean clothing. Dispose of rinse water in accordance with local and national regulations.
Respiratory protection	: Manufacturing and processing work: Half mask with a particle filter FFP1 (EN149)
	Mixer and loaders must wear: Half mask with a particle filter FFP1 (EN149)
	Spray application - outdoor: Tractor / sprayer with hood: No personal respiratory protective equipment normally required.
	Tractor / sprayer without hood: Half mask with a particle filter P1 (EN 143).
	Backpack / knapsack sprayer: Half mask with a particle filter P1 (EN 143).
	Mechanical automatized spray application in closed tunnel: No personal respiratory protective equipment normally required.
SECTION 9: Physical and che	mical properties
9.1. Information on basic	physical and chemical properties
Form	: solid, granular
Colour	: light brown
	6/14

Version 1.0 Revision Date 12.02.2020	Ref. 13000027529	
Odour	: slight	
Odour Threshold	: not determined	
рН	: 9.4 at 10 g/l ( 20 °C), Method: CIPAC MT 75	
Melting point/range	: Not available for this mixture.	
Boiling point/boiling range	: not applicable	
Flammability (solid, gas)	: Does not sustain combustion.	
Thermal decomposition	: Not available for this mixture.	
Auto-ignition temperature	: 387 °C	
Oxidizing properties	: The product is not oxidizing.	
Explosive properties	: Not explosive	
Lower explosion limit/ lower flammability limit	: (for a component of this mixture)	
Upper explosion limit/ upper flammability limit	: Not available for this mixture.	
Vapour pressure	: Not available for this mixture.	
Bulk density	: 707 kg/m3 , packed	
Water solubility	: soluble	
Partition coefficient: n- octanol/water	: not applicable	
Viscosity, dynamic	: not applicable	
Relative vapour density	: Not available for this mixture.	
Evaporation rate	: not applicable	
Minimum ignition energy	: > 1,000 mJ	
9.2. Other information		
Physchem./other information	: No other data to be specially mentioned.	
SECTION 10: Stability and reactiv	-	
	: No hazards to be specially mentioned.	
10.2. Chemical stability	: The product is chemically stable under recommended conditions of storage, use and temperature.	
7/14		

**OUPOND** 

Version 1.0 Revision Date 12.02.2020	Ref. 130000027529
10.3. Possibility of hazardous reactions	: No dangerous reaction known under conditions of normal use. Polymerization will not occur. No decomposition if stored and applied as directed.
10.4. Conditions to avoid	: Exposure to moisture. Decomposes slowly on exposure to water. To avoid thermal decomposition, do not overheat. Under severe dusting conditions, this material may form explosive mixtures in air.
10.5. Incompatible materials	: No materials to be especially mentioned.
10.6. Hazardous decomposition products	: No materials to be especially mentioned.

### **SECTION 11: Toxicological information**

### 11.1. Information on toxicological effects

Acute oral toxicity

LD50 / rat : > 5,000 mg/kg Method: Fixed Dose Method The toxicological data has been taken from products of similar composition. Information source: Internal study report

Acute inhalation toxicity

- Tribenuron methyl LC50 / 4 h rat : > 6.0 mg/l
- Thifensulfuron methyl LC50 / 4 h rat : > 7.9 mg/l

Acute dermal toxicity

LD50 / rat : > 5,000 mg/kg Method: OECD Test Guideline 402 The toxicological data has been taken from products of similar composition. Information source: Internal study report

Skin irritation

### rat

Result: No skin irritation Method: OECD Test Guideline 404 The toxicological data has been taken from products of similar composition. Information source: Internal study report

Eye irritation

rabbit Result: No eye irritation Method: OECD Test Guideline 405 The toxicological data has been taken from products of similar composition. Information source: Internal study report

Version 1.0 Revision Date 12.02.2020

Ref. 130000027529

Sensitisation

mouse Local lymph node test Result: Animal test did not cause sensitization by skin contact. Method: OECD Test Guideline 429 (Data on the product itself) Information source: Internal study report

Repeated dose toxicity

• Tribenuron methyl The following effects occurred at levels of exposure that significantly exceed those expected under labeled usage conditions.

Oral rat Exposure time: 28 d Reduced body weight gain

 Thifensulfuron methyl The following effects occurred at levels of exposure that significantly exceed those expected under labeled usage conditions.

Oral - feed multiple species Reduced body weight gain

Mutagenicity assessment

- Tribenuron methyl Animal testing did not show any mutagenic effects. Tests on bacterial or mammalian cell cultures did not show mutagenic effects.
- Thifensulfuron methyl Tests on bacterial or mammalian cell cultures did not show mutagenic effects.

Carcinogenicity assessment

- Tribenuron methyl Not classifiable as a human carcinogen. An increased incidence of tumours was observed in laboratory animals. Target(s): Mammary glands
- Thifensulfuron methyl Animal testing did not show any carcinogenic effects.

Toxicity to reproduction assessment

- Tribenuron methyl
   No toxicity to reproduction
- Thifensulfuron methyl
   No toxicity to reproduction

Assessment teratogenicity

• Thifensulfuron methyl

9/14

Version 1.0 Revision Date 12.02.2020 Ref. 13000027529 Did not show teratogenic effects in animal experiments. Animal testing showed effects on embryo-fetal development at levels equal to or above those causing maternal toxicity. STOT - single exposure н The substance or mixture is not classified as specific target organ toxicant, single exposure. STOT - repeated exposure н The substance or mixture is not classified as specific target organ toxicant, repeated exposure. Aspiration hazard П The mixture does not have properties associated with aspiration hazard potential. **SECTION 12: Ecological information** 12.1. Toxicity Toxicity to fish static test / LC50 / 96 h / Oncorhynchus mykiss (rainbow trout): > 120 mg/l Method: OECD Test Guideline 203 The toxicological data has been taken from products of similar composition. Information source: Internal study report Toxicity to aquatic plants ErC50 / 72 h / Pseudokirchneriella subcapitata (green algae): 0.16 mg/l Method: OECD Test Guideline 201 (Data on the product itself) Information source: Internal study report ErC50 / 168 h / Lemna gibba (duckweed): > 0.0036 mg/l Method: OECD Test Guideline 221 (Data on the product itself) Information source: Internal study report Toxicity to aquatic invertebrates static test / 48 h / Daphnia magna (Water flea): > 120 mg/l Method: OECD Test Guideline 202 The toxicological data has been taken from products of similar composition. Information source: Internal study report Chronic toxicity to fish Tribenuron methyl NOEC / 21 d / Oncorhynchus mykiss (rainbow trout): > 560 mg/l • Thifensulfuron methyl NOEC / 21 d / Oncorhynchus mykiss (rainbow trout): > 250 mg/l Chronic toxicity to aquatic Invertebrates Tribenuron methyl NOEC / 21 d / Daphnia magna (Water flea): 120 mg/l 10/14

Version 1.0 Revision Date 12.02.2020

### Ref. 130000027529

 Thifensulfuron methyl NOEC / 28 d / Americamysis bahia (mysid shrimp): 7.93 mg/l

### 12.2. Persistence and degradability

### Biodegradability

Not readily biodegradable. Estimation based on data obtained on active ingredient.

- Tribenuron methyl According to the results of tests of biodegradability this product is not readily biodegradable.
- Thifensulfuron methyl According to the results of tests of biodegradability this product is not readily biodegradable.

### 12.3. Bioaccumulative potential

### Bioaccumulation

Does not bioaccumulate. Estimation based on data obtained on active ingredient.

- Tribenuron methyl Does not bioaccumulate.
- Thifensulfuron methyl Does not bioaccumulate.

### 12.4. Mobility in soil

Mobility in soil

Under actual use conditions, there is no reasonable expectation of any movement of the product from the top soil layer.

### 12.5. Results of PBT and vPvB assessment

PBT and vPvB assessment

This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT). / This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

### 12.6. Other adverse effects

### Additional ecological information

No other ecological effects to be specially mentioned See product label for additional application instructions relating to environmental precautions.

### **SECTION 13: Disposal considerations**

### 13.1. Waste treatment methods

Product

: In accordance with local and national regulations. Must be incinerated in a suitable incineration plant holding a permit delivered by the competent authorities. Do not contaminate ponds, waterways or ditches with chemical or used container.
